

XYZ I530 VS

XYZ I550 VS

Despite the advances of 'easy to use' CNC systems we still offer a complete range of Manual Machine Tools which are very popular with Training Organisations and Maintenance Shops etc. For those who have to operate within a more commercially competitive environment please see the entry level ProtoTRAK® RLX system and machines on pages 5 to 16 of the XYZ 2021/22 Turning Catalogue.

In the last 30 years XYZ have installed over 10,000 manual Lathes and Turret Mills in the UK, which have become synonymous with quality, reliability and value for money.

All XYZ manual machines are built of solid ribbed cast iron to provide unrivalled rigidity and stability and all are fitted with European bearings and electrical components to full CE approval.

	XYZ I530VS	XYZ I550VS
