SWING OVER BED 1,500mm
SPINDLE BORE 160mm (up to 420mm opt)
DISTANCE BETWEEN CENTRES 1M-10M
SPINDLE SPEEDS RPM:
H200-600, L 20-300

SIEMENS

The XYZ XL and Oil Country Lathes are heavy-duty machines built to handle the toughest of work for either chucking or between centre applications using the massive tailstock assembly. The solid ribbed cast construction with wide vee and flat bed ways offer excellent stability and rigidity. The powerful spindles sit in a headstock built using the highest quality gears and bearings.

In combination, these features create one of the most capable and reliable ranges of large capacity lathes available in the UK.

The XYZ Oil Country and XL Lathe range feature a one-piece bed and base casting.

Headstock

The Headstock is built using induction hardened and precision ground gears. Precision taper roller bearings and support journal bearings ensure spindle rigidity and concentricity. High pressure oil lubrication is provided to all gears and bearings via a pump and oil cooler ensuring thermal stability, quiet running and long life.

Control

We have chosen the 'Easy to program' Siemens 840D Conversational 'Shop Turn' Control as the standard control.

Swarf Management

All XYZ Oil Country and XL Lathes come as standard with swarf conveyor and bin.

Cast Bed & Base

This heavy machine comes with a massive one piece 544mm wide bed with induction hardened and ground slides.

Tailstock

The massive tailstock with two clamp points prevents movement when machining components between centres.

	XYZ XL 1500
Bed type	One piece bed and base
Swing over bed	1,500 mm
