

Despite the advances of 'easy to use' CNC systems we still offer a complete range of Manual Machine Tools which are very popular with Training Organisations and Maintenance Shops etc. For those who have to operate within a more commercially competitive environment please see the entry level ProtoTRAK® KMX system and machines on pages 7 to 14 of the XYZ 2021/22 Milling Catalogue.

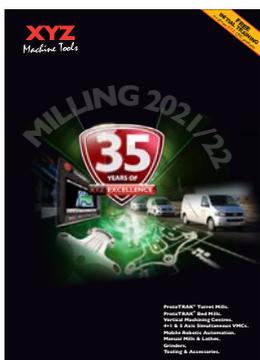

In the last 30 years XYZ have installed over 10,000 manual Turret Mills and Lathes in the UK, which have become synonymous with quality, reliability and value for money.

All XYZ manual machines are built of solid ribbed cast iron to provide unrivalled rigidity and stability and all are fitted with European bearings and electrical components to full CE approval.

Guards removed for clarity

	XYZ SLV
Newall digital readout	DRO
Spindle drive motor	3.75 kW (5 HP)
Vari speed range - low/high	70-3,600 rpm
Table size	1,473 x 305 mm
